Mali Davies - Photographer and Content Creator

"I was given a camera at the age of 6 – a KODAK Instamatic. That was the start of my love with photography... The colour from that film camera still blows me away to this day! Bright, vivid and like me full of enthusiasm and eyes full of saturation."

How times change but expression and my enthusiasm stays the same...

My relationship with photography is the one constant, the one art form I have kept with me throughout my life. I studied fine art and graphic design for 8 years before working as a professional graphic designer for over 20 years! Photography is my true form of artistic expression.
