

Workshop

7.30 pm 11th August 2021

New Zealand Bird Photography

Guest Speaker: Simon Runting

Come and hear Simon speak about his career in photography from his early days at Fleet Street to where he is now as a very successful Bird Photographer

About Simon:

With over 40 years behind the camera shooting news around the World, Simon has now turned the lenses on to the local wildlife.

When not shooting pics on major construction sites and projects he is to be found looking for a new angle on often common and over-looked birds and using the latest gear to get him there.

Simon is always looking for new and different images and working with the great light we have here in New Zealand.

You can find more of Simon's bird photography here:

Sony 2020 Alpha Awards

Now in its fifth year, the Alpha Awards aim to celebrate photographs captured by Australian and New Zealand photographers which are taken on Sony Alpha cameras and lenses.

The purpose of the competition is to 'inspire creativity and passion among photographers across the board', and the competition recognises the work of both professional and amateur photographers.

Over 3000 images across all categories were submitted from professional and amateur photographers from Australia and New Zealand.

Simon was the winner of the nature section
