

WORKSHOP WEDNESDAY 14th APRIL 7.00 pm (note change of time)

4 Workshop topics on the same night

This is a hands on workshop so bring your camera, tripod, extension tube, macro lens (if you have one) full battery, clean card, camera instruction manual and remote trigger.

A not to be missed workshop and social event - Nibbles and refreshments will be provided

(Members have the choice of four very interesting workshop topics presented by five experienced club member)

The 4 Topics are

1: The Art of Bubble photography - Have you ever wondered how to photograph the sheer beauty of soap bubbles. You can create some stunningly beautiful images if you know how. One of the best things about photographing bubbles is the reflection. Come and find out from Kevin how to set up your camera to create some amazing results.

Presenter Kevin Chong. Activity table 1

2: Multi Exposure and Transparencies - Double exposure is a photographic technique that combines two exposures to create a single image. This technique yields very interesting results and Diane will show you how to create ghost and mirror images that tell a story in a unique way that can't be achieved with a single photo. Also ideas on how to get the best out of using a light box.

Presenter Diane Costello. Activity table 2

3: Macro Photography - Want to explore macro photography? Anna and Dean will help you get started. Macro photography is a fascinating and absorbing branch of photography through which you can explore the details of the world around you and come up with some fantastic images. Anna and Dean will share their experiences and camera settings that will assist you with creating some fantastic images.

Presenters Anna Arrol and Dean Robieson. Activity table 3.

4: Depth of Field - What is depth of field and why it matters in photography. Depth of field describes how much of your scene is in focus and Glenn will explain how understanding depth of field is one tool that will help you to make your images more powerful and interesting.
